

Target Market Determination: Low Deposit Home Loan

What's a Target Market Determination?

A Target Market Determination (TMD) is a written document that describes the target market for a product (ie, who a product is appropriate for), the key attributes of a product and how a product is being distributed. A TMD also sets out when reviews need to be conducted and the relevant information that is needed by distributors of the products to identify the need for a review. A TMD is not a determination that any person is within the target market for a product. A TMD does not summarise all terms, criteria or obligations associated with a product. For more information about TMDs go to [Target Market Determination | Keystart](#). For more information about our low deposit home loan go to [Low Deposit Home Loan \(keystart.com.au\)](#).

TMDs keep customers at the centre of our approach to the design and distribution of our financial products.
